

Michigan Diabetes Outreach Network

Mission:

MDON promotes innovative partnerships to strengthen the prevention, detection and management of diabetes throughout Michigan.

Michigan Advocacy:

- Influencing policies that affect people with diabetes
- Educating the public on diabetes issues
- Improving access to care, services and supplies

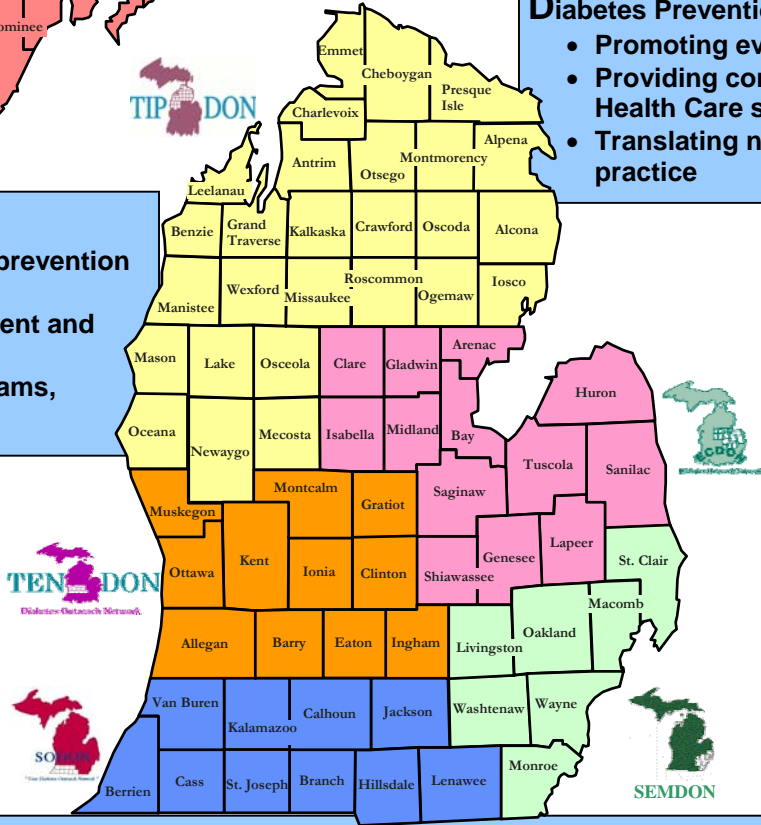

Diabetes Prevention and Care:

- Promoting evidence-based care
- Providing consultation for Health Care systems change
- Translating new science into practice

Network of Professionals:

- Collaborating on diabetes prevention and care initiatives
- Fostering career development and leadership activities
- Offering educational programs, resources and materials

Outreach for Community Awareness:

- Assisting with diabetes programs and projects for prevention and care in Schools, Worksites, Churches, Communities
- Efforts focusing on culturally diverse high-risk groups
