Select "Treating Tobacco Dependence in Michigan: Implementing Effective Cessation Interventions & Systems"

Implementing Effective Tobacco Dependency Treatment, Interventions and Systems in Michigan

A new, free, web based tobacco training program produced and presented by the Michigan Department of Community Health Tobacco Section in conjunction with the Michigan Smokefree Hospitals Grant and the Michigan Primary Care Association

Eight modules are designed to help health care providers implement evidence-based patient treatment interventions and systems change in order to decrease tobacco use. Users may complete one, two, three ... or all eight modules that average one hour in length:

- *Tobacco Dependence and Abuse: A Serious Disease That is Killing Michigan Residents*
- *Tobacco Cessation for Office Staff and Providers: Implementing Consistent Assessment and Treatment*
- *Implementing Cessation Programs: Inpatient and Outpatient*
- *Enhancing Tobacco Reduction in Pediatrics: Strategies for Pediatric Care Providers and Offices*
- *Tobacco Prevention and Cessation for Dental Professionals*
- *Smoking Cessation for Prenatal and Postpartum Women*
- *Nicotine Addiction Therapy*
- *Lesbian, Gay, BiSexual, and Transgender (LGBT) Sensitivity Training for Tobacco Cessation Providers*

Watch the web site for additional modules to be added in the future
